

# REGO-FIX

**REGO-FIX Tool Corporation**  
**4420 Anson Blvd. Whitestown, IN 46075**  
**www.RegoUSA.com**

## ► CORE COMPETENCIES

REGO-FIX Tool Corporation is a world leader in the manufacture of Swiss-precision tooling and metrology solutions while also specializing in leadership development and innovation. Our commitment to providing customers with accurate, high-quality toolholding products, including the invention of the ER collet in 1973, stems back to 1950 and carries through our business today. Represented in the blue triangle of the REGO-FIX Tool Corporation logo, our company is dedicated to machining excellence, innovative approaches and passion for precision.

- Advanced toolholding and metrology solutions that provide unmatched reliability and precision for manufacturers in a variety of industries
- Toolholding systems that minimize vibration and tool runout while maximizing clamping force, security, tool life and output quality
- Development of new and innovative technologies
- Exceptional service and application support

## ► DIFFERENTIATORS

- The “R” in ER stands for REGO-FIX, the toolholder aERospace relies on
- The inventors of the powRgrip toolholding system
- Named one of the “Best Places to Work in Indiana” for five consecutive years
- Center for Machining Excellence promoting “productivity through partnership”
- Experts in toolholder balancing and cleaning, inspections, modifications and training
